

奏 KaNaDe®

Kanai Seisakusho Co.,Ltd

Insulator for Audio System Resonator for Strings

HP) <http://composite-insulator.p2.weblife.me>

Of the first in the world the element material designer who stops crying of brake for automobile was theoretical with an empirical rule in KaNaDe, and which won 8 of the material and blending ratio out of which I get an invented musical ingredient," the sound exclusive compound factor = patent product.

The shape is also to adopt the original cross slit to which a study of a brake was applied and make the same inner pore structure as a wood last, and an insulator (vibration control) does attendant sound, and a resonator (resonate) does direct sound.

(2018 Attractive patent product, Naming Award Nominate)

(The material and the shape are a registration patent in Kanai Seisakusho.)

Insulator for Audio System

Reduce the mechanical vibration and get realistic live sound.

< KaNaDe02 >

for Speaker

KaNaDe02 bf
(¥30,000/2pieces)

for BookShelf
